# State Transport Authority and the second of the second of

Resc.

The following resolution taken by the State Transport Authority, at its meeting held on 25-10-1969, is liereby published for the information of members of public in general and of taxi-operators in particular: and of taxi operators in particular:

Whereas it is one of the conditions of the permit of the individual contract carriage sanctioned by the State Transport Authority that the said Fermit holders shall get the Motor Cabs and authorickshaws fixed with meters if so required by the State Transport Authority;

And whereas the State Transport Authority in its meeting held on 24-1-1968 had taken a decision to attach a condition to all the contract carriage permits issued before that date and to be issued thereafter that the Motor cabs and autorickshaws should be fitted with meters duly tested by the competent authority by the 15th August, 1968, after which, under no circumstances, taxi-cab or auto-rickshaw shall be allowed to ply without such meters.

And whereas all the permit holders of the contract carriers have given written undertakings that they are agreeable to have the meters fixed to their taxs by 28th February,

Now the State Transport Authority in pursuance of the powers conferred by sub-section (2) of section 5th of the Motor Vehicles Act, 1939 and its decision regarding the fixation of meters to the motor cabs and auto-rickshaws, taken by it in its meeting held on 24-1-1968 hereby resolves that the motor cabs and auto-rickshaws in the District of Goa, should be fitted with any one of the following types of meters as recommended by the Director of Transport:

- A. Diamond Manufactured by: Diamond Clock Mfg. Co. Pvt. Ltd. Mark III.
- Argo Manufactured by: R. C. Edwards & Co. Pvt.
- Victor Manufactured by: Victor Meter Manufacturing Co.
- 4. Faremaster Manufactured by: Vibronica Private Ltd.
- 5. Nishibe Manufactured by: Sujansingh & Sons Pvt. Ltd. No. SX 9101.

And further in pursuance of the powers conferred by sub-rule (1), of rule 4.68 of the Goa, Daman and Diu Motor Vehicles Rules, 1965, the State Transport Authority hereby issues the following instructions in the matter of the fixation of the meters to the taxis and auto-rickshaws:

1. Constructional requirements.—(1) Every meter shall be so constructed as (i) to indicate in suitable slots upon the dial the amount of fare calculated by time and/or by distance in kilometers and (ii) to have a flag, the position of the flag showing whether or not the meter is in action (i.e. «Hired» or «For Hire» or «Stopped»).

- (2) The nature of the information given in each slot, i.e. fare, position of flag and extra charges shall be indicated by suitable wording immediately above or below the slot. The words or signs denoting rupees and paise shall be placed immediately above below or besides the appropriate disc. or drum positions.
- (3) (i) The letters and figures shown in the slots shall be of a size which the Director of Transport Officer considers to be reasonable and shall be so placed as to be easily read by the hirer.
- (ii) All letters and figures required to be shown on meter gear-boxes shall be of such size, form and colour as would render them clearly legible.
- (4) The flags of a meter shall be of suitable strength and shall bear the words «For Hire» in the white letters of plain block type at least 50 millimeters in height and of proportionate thickness on a red coloured grounds so that they may be easily read from a distance. The arm or lever which carries the flag shall be of such length that when it is kept vertical the lower edge of the flag is above the highest part of the meter.
  - (5) The mechanism of meters shall be so designed that
- (a) (i) the words «For Hire» are indicated in the appropriate slot when the flag arm is vertical.
- (ii) the word «Hired» is indicated when the arm has been depressed through 180° and the time and distance gearing are in engagement.
- (iii) the word «Stopped» is indicated when the arm is arrested in a horizontal position at 270°.
- (b) the flag arm cannot normally remain in any position other than the three positions mentioned in item (a) above.
- (c) the fare by the time ceases to be recorded when the flag is in the «Stopped» position.
- (d) the fare by distance is recorded on the meter if the taxi-cab is driven with the flag in the «stopped» position.
- (e) the fare recorded is not obscured when the flag is in the «Hired» position or «stopped» position.
- (f) it is not possible (i) to move the flag back from the «Hired» position to «For Hire» position (ii) to return the flag from «Stopped» position to «Hired» position
- (g) when the flag arm is raised to a vertical position (i. e. the «For Hire» position), the previous record of fare is cleared and the various mechanisms are brought to the initial positions. tial positions.
- (h) before the flag can again be depressed the full vertical position shall be reached, and a positive stop made there to ensure that the mechanism comes to rest and that the fare indication is obscured by a shutter.
- (i) the mechanism for recording time and distance cannot be engaged or disengaged except by the normal sequence of operation of the flag arm referred to in clause (a) and (f),

- (j) the operation of the shutter of obscuring the fare synchronises with the engaging and disengaging of the time and distance, mechanism of the meter.
- (6) Every meter shall be so constructed that it gives audible warning by means of a suitable bell or gang whenever the driver moves the lever which operates the recording mechanism.
- (7) (a) Every meter shall be so made as to be capable of being sealed by inset lead seal after the meter has been tested and approved. The holes or receases for the seals shall be 3 millimeters deep and shall taper gradually in diameter from at least 18 millimeters at the bottom to 16 millimeters at the top.
- (b) When the gear which operates the distance recording apparatus is not contained in the main part of the machine, the case or cover enclosing it shall be so made that it may be sealed either by the inset or wired on type or scal.
- (c) All meter cable, connections shall be so made as to be capable of being scaled by means of inset or wired-on lead scals to prevent improper removal.
- (8) The mechanism driving the distance recording gearing of meters shall be fitted not to the driving wheels of a cab but to the non-driving wheels of the chassis gear-box attached to the cab.
- (9) (a) A place of suitable size and pattern shall be attached to the meter or its gear-box in such a manner that it cannot be removed without either removing the seals affixed by the testing institution or opening the meter or the gear-box. The plate shall bear raised or sunken words of figures denoting the measurement of the effective circumference of the wheel by which the meter will be driven and by which its action and accuracy may be tested.
- (b) The measurements shown on the plate shall be in accordance with the circumference of the wheels of minimum size approved for the cab and normally attached thereto.
- Explanation: The effective circumference of the cab wheel to which the meter transmission gearing is attached and by which the meter is driven is the distance which the cap move, forward for one complete revolution of the wheel and may be measured by making a mark on the type of the wheel where it touches the ground and pushing the cab in a straight line until this mark is again in contact with the ground the cab being in its normal working condition and carrying two passengers.
- 2. Further test of meters of approved type, (a) A meter of type specified herein above shall before being fitted to a motor cab be sent to such technical institution as may be approved by the State Transport Authority in this behalf or (b) for a rough test whether the meters accurately registers time and distance and also for examination as regards its external appearance, general action and confirmity with the type of meter specifid above before an executive officer not below the rank of Inspector of Motor Vehicles of the Directorate of Transport as may be specified by the State Transport Authority from time to time.
- (2) Every meter in use shall be submitted (a) for test at such technical institution as may be specified under sub-clause (1) of (b) for a rough test before an executive officer specified in sub-clause (1) at least once in every 12 months and also whenever its seals are removed for any repairs or adjustments.
- (3) If after test and examination, the meter is found to be suitable it shall be sealed at the technical institution or before an executive officer, as the case may be, as specified under sub-clause (1), in such a manner that its interior parts cannot be reached without breaking the seal.
- 5. Method of test.—(1) (a) Arrangements shall be made at such technical institutions as may be specified under sub-clause (1) of clause 2 for the action of the meter to be demonstrated by a person familiar with its construction and technical details and after such demonstration, the person submitting the meter shall supply, for at least one day, a motor cab fitted with such meter or to which one of such meters submitted may be fitted, or
- (b) Arrangements shall be made at the office of the Directorate of Transport for a rough test whether the meters accurately register time and distance and also for examination as regards its external appearance general action and confirmity with the type of meter specified herein above.
- (2) Every person submitting meter of an approved type as specified in this Resolution shall be required to give an assurance that the instrument confirms with the relevant approved specimen available with the Directorate of Transport.

- (3) Meters submitted for a rough test may be opened for interior examinations deemed necessary.
- 4. Requirements as to fitting etc.—(1) Meters shall be fitted in such position and in such manner as may be approved by the executive officer of the State Transport Authority, having regard to the design of the motor cab. It shall normally be fixed on the left side of the drivers seat, with the face or dial towards the interior of the cab so as to be clearly visible to the hirer and also capable of being road both by the hirer and the driver.
- (2) Flexible or driving gears or gear-boxes shall be so affixed that no part of the cable etc. can be reached by an unauthorized person.
- (3) A meter or its gear-box shall not be fitted to a cab the effective circumference of the wheel of which is different from that for which the meter has been designed, geared and tested.
- (4) The effective circumference of the wheel by which a meter is driven shall not be more than 5% of and not less than the measurement shown on the plate attached to the meter under sub-clause (9) of caluse 1.
- \* (5) Every cab required to be fitted with meter shall have a light so fixed as to illuminate the meter at night when the cab is in running position.
- 5. Sealing of meter fitting after test. After a meter is fixed to a cab and before the cab is let or plyed for hire, it shall be taken to the Inspector of Motor Vehicles, who shall examine the meter as to the correctness of fittings and submit it to a practical road test of about 10 kilometers and a time test of not less than half as hour. If the meter is found to be correct, its fittings to the cab shall be sealed by such Inspector in such manner that they cannot be removed or tampered with without removing the seals.
- 6. Meter and its seals and marks not to be tampered with.—
  (1) No person shall break or in any way tamper with any seals or marks placed on the meter, or, with intent to deceive, tamper with a meter.
- (2) No meter shall be altered without the written permission of the Director of Transport.
- 7. Cab fitted with a defective meter not to be used (1) No meter which is in any way defective may be fitted to any cab and no cab which is fitted with a defective meter shall be used in any public place.
- (2) Upon service of a notice issued by an Inspector of Motor Vehicles on the owner of any cab prohibiting the use of meter fitted to it, the meter shall at once be removed and the cab shall be immediately withdrawn from service.
- 8. Repairs and repairers.—(1) After it is sealed under clause 1 no repairs to any meter shall be made except by a maker or repairer authorised by, and registered with the office of the Director of Transport.
- (2) Any person applying for being authorised and registered as a maker or repairer under sub-clause (1) shall satisfy the Director of Transport, that—
  - (i) the applicant is of good character and of good business repute;
  - (i) the applicant's financial position is sound;
  - (iii) the applicant maintains an efficient staff and sultable equipment at his premises and has a sufficient supply of spare part for the repair of meters;
  - (iv) the applicant is generally a fit and proper person to undertake the repair or adjustment of taxi meters.

Such person shall also agree that the premises where the work of repairs or adjustment of meters is to be carried on shall be open at all reasonable times to inspection by officers of the Directorate of Transport and that he shall notify to the Director of Transport if the situation of the premises is at any time changed.

(3) The Director of Transport or such other officer as may be authorised by the State Transport Authority in this behalf, may, in his discretion, suspend or cancel the registration of a maker or repairer if it is proved that such person is unable to comply or has not complied with the requirements set out in a sub-clause (2) or if the business is not carried on to the satisfaction of the Director of Transport or such other officer authorised by the S.T.A., as the case may be.

Panaji, 28th October, 1969.— Dr. Francisco Leão Pinto, Secretary, State Transport Authority, Government of Goa, Daman and Diu.

#### Notice

Notice is hereby given to the public that on behalf of the President of India public auctions will be held under the provisions of Legislative Order no. 114 dated 1-12-1924 as amended by Legislative Order No. 669 dated 18-7-1933, in the Office of the Director of Fisheries, Panaji.

- On 17th and 18th November, 1969, from 10 a. m. to 3 p. m. — of the localities of fishing stakes specified in Schedule I appended hereto, and
- 2) On 19th and 20th November, 1969, from 10 a.m. to 3 p.m.—of the localities of fishing stakes specified in Schedule II appended hereto.
- 3) On 5th December, 1969, from 10 a.m. to 3 p.m. of the localities of fishing stakes specified in Schedule III appended hereto.

The auctions will be subject to the following terms and conditions:

- 1) These auction will be for the lease of the localities of fishing stakes for a period of three years;
- 2) The auction is subject to confirmation by Government;
- The annual rental fixed on the basis of the successful bid will be payable for each of the three years of the lease period;
- The lease holders are not allowed to transfer their rights to others without the prior sanction in writing from the Government;
- 5) Only such nets, as would fulfill the conditions laid down in the notice issued by the office of the Captain of Ports, Panaji, dated 4th June, 1948 and published in the Government Gazette No. 25, Series III dated 17th June, 1948, with meshes as specified in the Government Order no. 4639 dated 8th April, 1948, shall be operated on the stakes.
- 6) For non-payment of the rental in accordance with the terms of para 2 of article 2 of the stakes regulations amended by Legislative Order No. 669 dated 18th July, 1933, the lease is subject to annulment.
- 7) The lessee shall operate the stakes regularly, failing which he will be subject to a fine of Rs. 5/-, 15/- and 50/- for the first, second and third time, respectively, and his lease may be terminated.

- 8) The lessee is also subject to all the other provisions of the stake regulations in force.
- 9) The lessee against whom the previous dues are outstanding will be allowed to participate in the auction only after clearing those dues. The decision of the Director of Fisheries in this behalf shall be final.
- 10) The bidders will have to deposit a sum of Rs. 100/prior to the start of the auction. The amount thus
  deposited will be refunded to those other than the
  successful bidders.
- dd) In case the successful bidder does not pay 50% of the annual rental with 2 days after the confirmation of the auction is communicated to him, the bidder will lose the rights on the stakes and the amount deposited by him will be forfeited to Government. Further the fishing stakes locality will be put to fresh auction.
- 12) The Director of Fisheries reserved the right to withhold any locality of fishing stakes from auction at any stage on receipt of complaints about the same of for any other reasons. The decision of the Director of Fisheries in this respect will be final.
- 13) In case there is no bid offered for any of the fishing stake locality, the same will be put to fresh auction on the 27th November, 1969 in the case of fishing localities specified in Schedule I and II and on 12th December, 1969 in the case of fishing localities specified in Schedule III.
- 14) The successful bidders will have to bear all the expenditure towards the execution of the contract of the fishing stakes locality.
- 15) In case the locality is adjudicated to someone other than the promoter, the latter will have to be compensated by the former with an amount equal to the initial expenditure incurred by him plus 10% of the expenses.
- 16) Genuine fishermen and registered Cooperative Societies of Fishermen will be entitled to bid in the auctions.
- W. G. Ranadive, Secretary (Revenue) to the Government of Goa, Daman and Diu.
